Customer Discovery Pain Points

Our customer discovery revealed diverse approaches to trip planning, highlighting a universal need for better organization and collaboration.

“

Activity Booking is Messy & Unstandardized

"The most difficult things to book would be the activities...you have to send a text to a Whatsapp number."

”

“

Coordination Overload for a Single “Trip Captain”

"We used a Google Doc... it was still difficult." & "Main trip planner carries an unfair emotional and organizational burden."

”

“

Missed Opportunities due to Poor Discovery

"On the last day we found kayaking and jet skiing... we probably would've done some."

”

“

Budget Stress & Unequal Finances

"Money is probably the biggest thing that would stop me."

”

“

Information Overload Everywhere & Lack of Transparency

"They tell you where to go...not how." & "Sometimes places are glorified online...when we got there, it wasn't as nice as you think."

”

“

App Fatigue & Low Adoption

"If it's too hard to get everyone on the app, I wouldn't come back."

”

Some recurring pain points are alignment on activities, budgeting, and inspiration-to itinerary translations. Different travelers have different needs.

Main Problem

Group travel planning is
**stressful, fragmented, and
inefficient!**

Group collaboration for trip planning makes what should be an exciting experience feel like a chore.

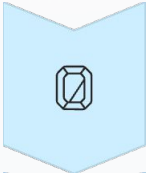

Introducing TripSync

TripSync is a gamified, collaborative travel planning platform that unifies inspiration, group coordination, budgeting, booking, and memory-keeping. It empowers friends & families to plan smarter, discover more, and enjoy the journey together.

Stress Less and Have More Fun!!!

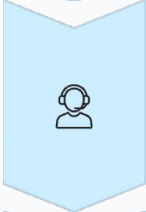

Experience TripSync: Feature Highlights

TripSync transforms group travel planning from a chaotic chore into an exciting, collaborative adventure. Every feature is built to reduce stress, increase alignment, and make planning fun.

Tinder-Style Swiping to Vote on Group Decisions

Gamified decision-making that instantly rate and rank activities, dining, and experiences.

Smart Itinerary Builder & Agentic Chatbot for Intelligent Suggestions

AI-generated day-by-day plans based on group preferences, no more fragmented lists or missed opportunities.

Collaboration Hub for Effortless Collaboration

Real-time chat, expense tracking, smart budgeting, and shared itinerary management.

Trusted Community Inspiration

Browse verified itineraries from real travelers or import ideas from TikTok/IG and turn them into actionable plans.

Seamless Booking Integration for Centralized Information

One-click booking for flights, lodging, and curated activities — eliminating scattered websites and WhatsApp messages.

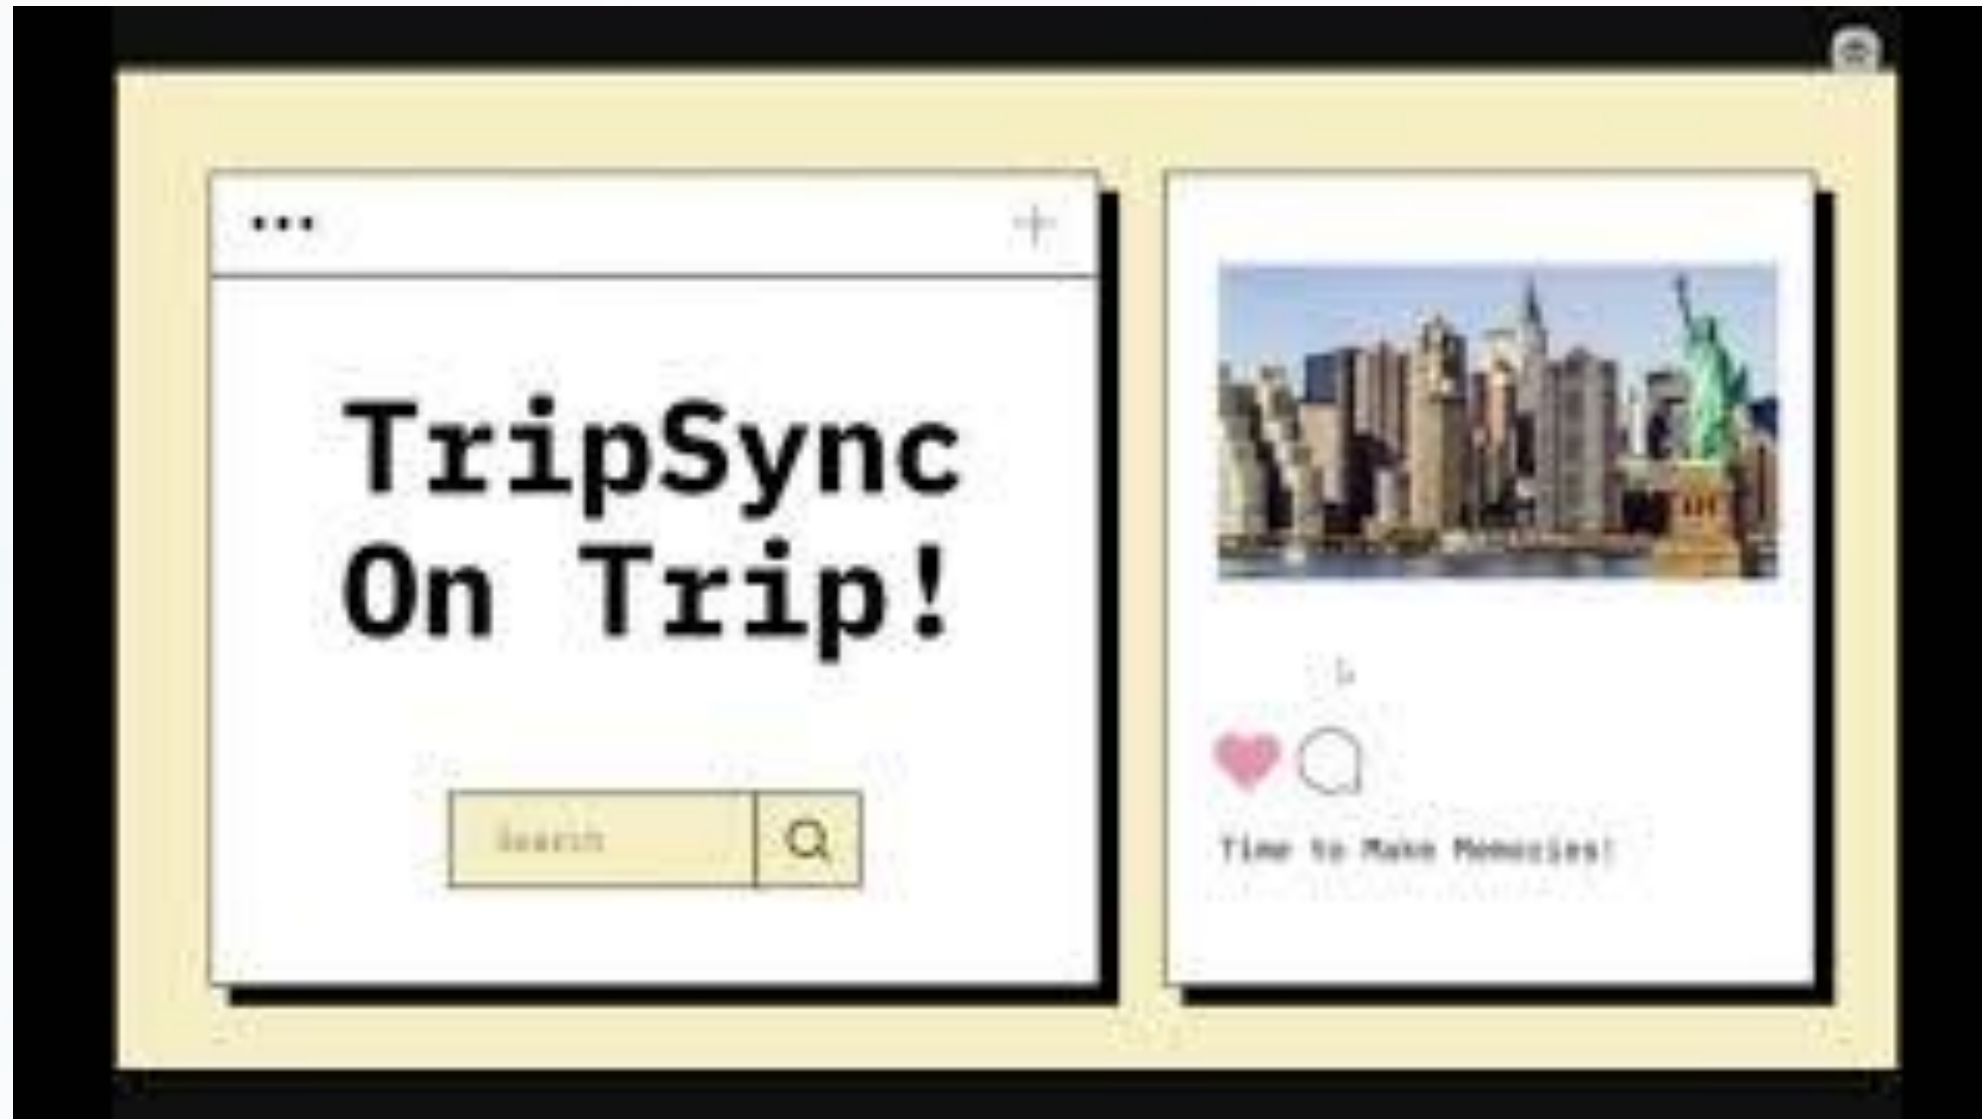

Post-Trip Travel Journal + Spotify Wrapped-Style Stats

Capture memories and celebrate adventures with highlights like hours flown, regions visited, and favorite activities, automatically generated after each trip. Share photos and experiences with family and friends.

Product Demo: See TripSync in Action

Experience the seamless collaboration and intuitive design of TripSync firsthand. Our demo showcases how easy it is to plan, share, and enjoy group travel.

Our North Star Metric: The Heart of TripSync's Success

We measure our impact by the real-world experiences we enable. Our ultimate goal is to facilitate more successful, enjoyable, and collaborative group adventures.

Number of active trips successfully planned and completed collaboratively on TripSync per year

Early Key Performance Indicators

Our initial metrics demonstrate strong user engagement and satisfaction, validating TripSync's value proposition.

80+%

CSAT Survey Score

Reflecting high user satisfaction with the platform experience.

40%

AI-Assistant Feature Engagement Rate

Users actively leveraging intelligent planning suggestions.

30%

User Retention after First Trip Planned / Qtr

High percentage of users returning for subsequent trip planning.

25

Active Trip Boards Created / Wk

Rapid growth in collaborative trip planning activity.

Guardrail Metrics

- Maintain <1% Error Rate in AI trip suggestions
- Target <2% user complaints or privacy concerns per quarter
- Ensure timely AI response latency at <500ms

Next Steps: Scaling Innovation

Our roadmap focuses on enhancing the platform's capabilities and expanding its reach to revolutionize group travel.

Data & Privacy Governance

Implementing robust security measures and privacy controls to build user trust.

AI Personalization

Further developing AI to offer hyper-personalized recommendations based on group preferences.

Integration & Booking Capabilities

Seamlessly integrate with major travel providers for direct booking within TripSync.

Community & Social Discovery

Fostering a vibrant community for travel inspiration and sharing experiences.

Thank You Questions?

We're happy to discuss how TripSync can transform the future of group travel.
